

Blackboard: Copy Content from One Course to Another

A Course Copy is a convenient way to reuse and adapt existing course materials semester to semester. Student work and grades cannot be copied in this process.

1. Open the Blackboard course that has the course materials you would like to copy.
2. On the **Control Panel**, click on **Packages and Utilities** and then select **Course Copy**.

Note: If you do not see Course Copy, you may not be listed as the course instructor. You must be the instructor of both courses to perform a course copy.
